

The Health Effects Of Electrical Pollution (EMF)

Join us for an exhibit & seminar by Eric Windheim

Owner of WindheimEMFSolutions.com • Director of Sacramento Smart Meter Awareness

Which household devices emit EMF and how do they damage your health?

What steps are needed to make your home a safer place to live in?

Which supplements protect and restore you from EMF damage?

Free initial consultation - EMF assessments for your home or office are available!

EMFs are electromagnetic pollution that can make you very sick

We are innocently exposed to these EMFs in our homes, offices and schools:

Dirty electricity • Microwave radiation • Magnetic fields • Electric fields

Eric will detect, measure & display these EMF toxins with precision instruments.

The Symptoms Below— have been linked to EMF exposure in numerous government studies, reports and independent, peer-reviewed papers from around the world.

Headaches • ringing in the ears • insomnia • nightmares • heart arrhythmias • A Fib • tachycardia • memory loss • brain fog • digestive problems • nausea • weight changes • joint/muscle pain • inflammation • lower pH • increased blood sugar or blood pressure • diabetes • asthma • allergies • nose bleeds • eye pain • vision loss • fatigue • cramps • menstruation issues • loss of libido • dizziness • agitation • anxiety • irritability • depression • suicide • behavior changes • autism • ADD • ADHD • cancer • leukemia • miscarriage

Sunday, August 23, 2015 • 2 pm to 4:30 pm

California State Grange Hall, 3830 U Street, Sacramento Ca.

Q & A will follow the slide presentation
